BEARING HOUSING
MANUFACTURER

Welcome to JAYCO

At Jayco, we specialize in crafting plummer blocks that embody the perfect fusion of precision engineering and innovative design. Each product is meticulously engineered to meet stringent quality standards, ensuring optimal performance and durability. Our commitment to using the finest materials and advanced manufacturing techniques guarantees reliability and longevity in every piece.

Vision

At Jayco, our commitment to quality extends beyond manufacturing. We are driven by a passion for excellence that resonates in our customer-centric approach and unwavering dedication to surpassing expectations. Whether in design, production, or service, we strive for continuous improvement to uphold our promise of delivering plummer blocks that are not only robust and reliable but also synonymous with superior performance and longevity.

Our Values

Integrity

We specialize in crafting plummer blocks that embody the perfect fusion of precision engineering and innovative design

Excellence

Each product is meticulously engineered to meet stringent quality standards, ensuring optimal performance and durability.

Customization

We proudly offer an extensive selection of plummer blocks, meticulously crafted to meet a spectrum of requirements in size, configuration, and load capacity.

Cutting-Edge Technology

we harness the power of advanced machinery and tools in our state-of-the-art facility. Equipped with the latest in manufacturing technology

Quality

From inception to completion, we uphold the highest standards of excellence through meticulous adherence to stringent quality control measures.

Our Goals

Experience the difference of partnering with a company that values your needs and strives to exceed them

01

Quality is not just a standard; it's our commitment that defines every aspect of our operations

02

We believe in building lasting relationships founded on trust, reliability, and exceptional service.

03

We are dedicated to delivering cost-effective solutions that do not compromise on the superior quality and performance that define our products.

04

Our products are esteemed for their durability, precision engineering, and ability to perform under rigorous operational demands

Our collections

Split Plummer Block

Designed for easy installation and hassle free servicing, our split designs ensure minimal downtime, maximizing productivity

Unsplit Bearing Housing

Type of bearing housing used to accommodate heavy loads acting in different directions

Take-up Unit

offer superior load-bearing capacity and reduced friction, ensuring optimal performance

Adapter Sleeve | Withdrawal Sleeve | Lock Nut | Lock Washer

Engineered for precision fitment and effortless assembly,
our adapter sleeve blocks simplify the mounting process

Pillow Block Bearings

Whether you're supporting rotating shafts or linear
motion systems, our pillow block bearings provide
reliable support and smooth operation

Water cooled / Special customized bearing housing

A water-cooled bearing housing is a specialized type of bearing unit housing designed to maintain reliable operating temperatures for bearings.

Our Product Range

Plummer Block

- S series
- SN series
- SNA series
- SNH series
- SNL series
- SAF series

Bearing Housing

- SD series
- SNL series
- SDAF series
- SOFN series
- LOE series

Special Block

- TVN series
- SDJ series
- SBD series
- THD series
- PDN series
- Triangular & square flange housing

Sleeves

- Adapter Sleeve H/HE
- Adapter Hydraulic Sleeve
- Withdrawal Sleeve
- Lock nuts
- Lock washers

Pillow Blocks

- UCP series
- F series
- T – Take up

Other Accessories

- FRB locating ring
- ATS end cover
- TSN..G Double LIP seal
- TSN..C Split seal with felt
- TSN..S Labyrinth seal with O-ring
- Felt seal
